

High Precision CNC Laser Cutting Machine 2KW 3KW 4KW 6KW 8KW

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: genuo
- Minimum Order Quantity: 1
- Price: negotiable
- Packaging Details: carton box
- Payment Terms: L/C, T/T, D/P, D/A

Product Specification

- Features: Equipped With Advanced Optical Fiber Laser Plate Cutting System And Pipe Cutting System
- Product Name: GN-PT Series Sheet And Pipe Integrated Laser Cutting Machine
- Functions: Different Functions Of Plate And Tube Cutting Can Be Switched Freely
- Other Features: Integrated Fuselage, Small Footprint Creating More Value For You
- Highlight: **High Precision CNC Laser Cutting Machine, 2KW CNC Laser Cutting Machine, 8KW cnc laser cutter**

for more products please visit us on genuocnc.com

Product Description

GN-PT Sheet&Pipe Series

GN-PT series sheet and pipe integrated laser cutting machine is equipped with advanced optical fiber laser plate cutting system and pipe cutting system. Different functions of plate and tube cutting can be switched freely. Integrated fuselage, small footprint creating more value for you.

Features

The CNC laser cutting machine adopts high-precision double-sided rack and pinion drive and linear guide rail, and adopts a powerful double-drive servo motor drive system, which effectively guarantees the speed and accuracy of laser cutting. You can also choose a replaceable workbench, which has extremely low failure rate and short replacement time, which greatly improves production efficiency.

Advanced Laser Generator

Compared with other similar lasers in the market, our laser has obvious advantages.

Optional IPG and nLIGHT Laser.

Cutting Heads

The design of water-cooled structure allows laser heads to work stably and chronically.

Optional PRECITEC and Lasermach laser cutting heads.

Lightweight Crossbeam

Meanwhile, it has perfect dynamic performance and meets the accuracy. With long service life, it can keep the shape unchanged to the greatest extent, so as to ensure the cutting accuracy and product quality.

Stable and Solid Bed

Then by the large-scale precision gantry machining center for precision machining. Stable and reliable bed, no deformation, to ensure long-term cutting accuracy and machine stability. Optional casting machine bed.

High Precision Transmission Parts

Let the machine run in a very smooth and efficient way. With the automatic lubrication system, the maintenance of mechanical parts is greatly reduced.

Optional Atlanta reducer, rack and pinion.

Superior Quality Electrical Components

At the same time, it has extremely accurate positioning accuracy and long service life. The main electrical accessories are Schneider and Siemens, reasonable line connection and optimization. Ensure a very low failure rate. Optional Yaskawa servo motor and drive

Powerful & Intelligent Laser Cutting System

It is easy to use and has powerful functions, which can meet and apply to various processing occasions.

Optional Germany PA8000, Siemens 840D CNC cutting system
